

I am looking for opportunities to become more involved in NCURA and am extremely interested in becoming one of the next board members at large for Region IV. I am excited at the opportunity this position would afford to interact with others across state lines to help grow and shape Region IV with its needs and goals as determined by the Region IV Chair.

I am qualified for this position as I would bring a decade of varied experiences that will make Region IV stronger. I have worked in positions at the department level focusing on pre-award submissions, as well as at the central level working in post award. Throughout my career I work hard to become a subject matter expert to be the best I can be and to help mentor others. I would bring that same determination to this position.

I have managed awards through the full life cycle in both financial and non-financial actions. I also have experience issuing sub award agreements, working with federal contracts, and training new hires. I have a broad knowledge of research administration and enjoy sharing, learning, and collaborating with others. I have had the privilege to attend one annual meeting in DC in 2019 and look forward to attending the regional meeting in Chicago this year. I am always impressed at the quality of the events that NCURA hosts and the quality of trainings available online. I look forward to becoming a active member and thank you for your consideration as I hope to be one of the next board members at large for region IV.
