Personal Profile
Region IV At-Large Member Self-Nomination

Personal Statement

Hello Region IV, I'm Hansa Magee. I'm self-nominating for an at-large member position because I like volunteering, I like getting things done, and I like doing things that towards the greater good (I know, this is cliché, but it is true!). I have not participated in any boards previously so I am excited for this introductory experience. I work in research analytics, which is mostly data processing, workflows, and standardization. I'm the person that likes to clean, optimize, and automate. I enjoy the behind-the-scenes tasks that make everything run smoothly for everyone else. Doing this for region IV is what excites me the most about this position – I just really enjoy making things efficient. A couple of fun facts about me – I am an avid reader and at the time of writing this in Nov 2025, I've read 46 books so far this year! I also play the violin and play in community orchestras, for weddings, etc. Thanks for reading to the last sentence!
